## WORK EXPERIENCE

---

### Tecurcity

Dec, 2023 - Feb, 2024

*Full Stack Intern*

*Remote*

- Acquired proficiency in relational databases such as PostgreSQL and gained familiarity with DrizzleORM.
- Developed an eCommerce site utilizing modern technologies including Next.js, React.js, PostgreSQL, DrizzleORM and React Query.
- Utilized Next.js Server Actions to optimize fetching requests, resulting in a 50% reduction in load times.
- Successfully deployed the site on Vercel, ensuring accessibility and scalability.
- Website live at <https://shop-swift-tau.vercel.app/>. Codebase - <https://github.com/AnkurParchani/shop-swift>

### HP Architects

Jan, 2023 - Feb-2023

*Freelancer*

*Cbhattisgarh, India*

- Designed and developed a dynamic portfolio website for HP Architects using HTML, CSS and JavaScript.
- Showcased the firm's projects with detailed information about the company and included a contact section for inquiries.
- Website live at <https://hparchitects.in/>

## PROJECTS

---

### Next-Blog (Blogging site)

Oct, 2023 –Nov, 2023

<https://next-blog-seven-eosin.vercel.app/>

- Blogging site using Next.js & TypeScript with MongoDB.
- Implemented essential features such as blog creation, updating, deletion, liking and commenting.
- Implemented JWT token-based authentication for enhanced security.
- Codebase - <https://github.com/AnkurParchani/nextBlog>

### EdenEmpire (eCommerce)

Aug, 2023 – Sep, 2023

<https://650abf91ec73fb2bd40a71e5--heroic-meringue-bf8dbb.netlify.app/>

- Developed an eCommerce website using React.js and deployed it on Netlify.
- Utilized MongoDB, Mongoose, React.js, Node.js, Redux, Express.js, React Query and Tailwind CSS to create a robust and scalable application.
- Codebase - <https://github.com/AnkurParchani/Eden-Empire>
